Education

Jagannath International Management School, Vasant Kunj, New Delhi
Bachelor of Computer Applications (BCA) | CGPA: 8.19 *August 2023 – June 2026*

Experience

Full Stack Web Developer Internship June 2025 – July 2025
Online Internship Program: Remote

- Developed and deployed **Skill Bridge**, a full-stack Fiverr-inspired freelance marketplace using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Designed scalable RESTful APIs for user authentication, gig management, and order lifecycle; implemented secure JWT-based authentication with protected routes and session handling.
- Integrated real-time bidirectional messaging using Socket.io and built a responsive React.js interface using component-based architecture with Toastify notifications.
- Deployed the frontend on Vercel and backend on Render with MongoDB Atlas, and maintained version control using Git and GitHub.

Projects

Skill Bridge – Freelance Marketplace | Live | GitHub June 2025 – July 2025

Tech Stack: MongoDB, Express.js, React.js, Node.js, Socket.io, JWT, Toastify

- Built a Fiverr-inspired full-stack freelance marketplace using the MERN stack enabling user authentication, profile management, gig creation, order placement, and project lifecycle management.
- Designed scalable RESTful APIs using Node.js and Express.js with JWT-based authentication, role-based access control, and secure session handling for freelancers and clients.
- Integrated real-time messaging using Socket.io and deployed the application on Vercel and Render with MongoDB Atlas while maintaining version control via Git and GitHub.

PlannEx – Event Management System | Live | GitHub Feb 2026 – Present

Tech Stack: MongoDB, Express.js, React.js, Node.js

- Developed a full-stack MERN Event Management System featuring role-based dashboards, automated task delegation workflows, and an admin-approval system for secure workspace access.
- Built RESTful APIs using Node.js and Express.js with MongoDB, implementing a secure, passwordless OTP authentication flow via Twilio SendGrid and JSON Web Tokens (JWT).
- Integrated the Google Gemini AI SDK to automate the generation of Markdown-formatted post-event reports and utilized Cloudinary for optimized media storage.

Technical Skills

Languages: JavaScript (ES6+), HTML5, Tailwind CSS
Frontend: React.js, Context API, Redux Toolkit
Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, Socket.io
Database: MongoDB, MongoDB Atlas
Tools: Git, GitHub, VS Code, Postman, Vercel, Render

Extra-Curricular Activities

Team Leader – NSS, JIMS College Club 2025 – 2026
National Service Scheme, JIMS Vasant Kunj

- Led volunteers for Project Parivartan including donation drives and self-defence training initiatives.
- Coordinated the Yamuna Clean-Up Drive, managing event logistics, volunteer coordination, and participant registrations.
